

Muhammad Bilal Nazir

CS Graduate | Full Stack Developer | AI & Cybersecurity Researcher

Chiniot, Pakistan | bachohan786@gmail.com | linkedin.com/in/mbilal-nazir | github.com/Bilal-Nazir-3360

SUMMARY

Computer Science graduate from FAST-NUCES building end-to-end systems across full-stack web, machine learning, and cybersecurity. Experience shipping phishing detection (hybrid ML + React), self-supervised vision (Masked Autoencoders), and production-style APIs with FastAPI, Node, and JWT.

EDUCATION

B.S. Computer Science - FAST-NUCES (NUCES)

Batch 22 | Roll No. 22F-3360 | Chiniot / Pakistan

SKILLS

Languages: Python, JavaScript, HTML5, CSS3, SQL, C++

ML / AI: scikit-learn, PyTorch, TF-IDF, Random Forest, ViT / MAE, NLP

Web: React, Vite, Tailwind CSS, Node.js, Express, FastAPI

Tools: Git, GitHub, pytest, MongoDB, JWT, Kaggle

SELECTED PROJECTS

PhishGuard

AI phishing URL & email detector. FastAPI ML (Random Forest + TF-IDF/LogReg), Express/JWT gateway, React dashboard with highlighting and confidence gauges. github.com/Bilal-Nazir-3360/PhishGuard

Masked Autoencoder (MAE)

Self-supervised ViT MAE on TinyImageNet (75% masking). Best val loss 0.2121, PSNR 21.82 dB, SSIM 0.69. github.com/Bilal-Nazir-3360/GenAI-Assignment-2-MAE

PlanPilot

Task-management frontend with AJAX content, animated stats, reviews, and support chat. github.com/Bilal-Nazir-3360/Assignment_2-Web

Software Testing Suite

Four pytest modules: fixtures, parametrization, coverage, auth logout. 57 passing tests. github.com/Bilal-Nazir-3360/ST-PyTest-Assignment

RESEARCH

Hybrid Machine Learning for Explainable Phishing URL and Email Detection

Status: Under Review

Hybrid lexical Random Forest (URLs) with TF-IDF logistic regression (email), token-level highlights, and calibrated confidence scores for deployment as a full-stack scanning service.

ACTIVITIES

- FAST-NUCES Computer Science graduate (2026)
- Information Security capstone: PhishGuard
- Generative AI coursework: Masked Autoencoders on TinyImageNet
- Independent AI & cybersecurity research (manuscript under review)

- Open-source work at github.com/Bilal-Nazir-3360
